## WELCOME *home*

Congratulations on taking ownership of your beautiful new apartment in Amparo by Mosaic.

Nestled in one of Brisbane's most prestigious addresses, Amparo is a timeless example of superior design. From its enviable north-east facing position, Amparo is perfectly situated to take full advantage of the Brisbane skyline and natural outlooks. Attention to detail is on full display, with nothing left to chance, and every minute detail crafted to create unsurpassed luxury.

We are extremely proud of this project and so very humbled with the overwhelmingly positive feedback from our owners. For us, there is no more important measure of success than the ultimate satisfaction of those who have placed their trust in us to deliver their new home. I can say without reservation that Amparo has exceeded expectations all round, and it is another exciting milestone for us to have now handed over the keys to you.

Of course, our commitment to you doesn't stop here. As part of our promise of delivering enduring value, we maintain the management and caretaking rights of all our properties for at least 25 years post-completion, so you can rest assured that your home is not only well built, it will also be beautifully maintained for the life of your investment.

Should you have any queries at all, be it now, or in one, two or five years time, we will always be here to assist.

Your home is where the heart is – and our heart is where your home is.

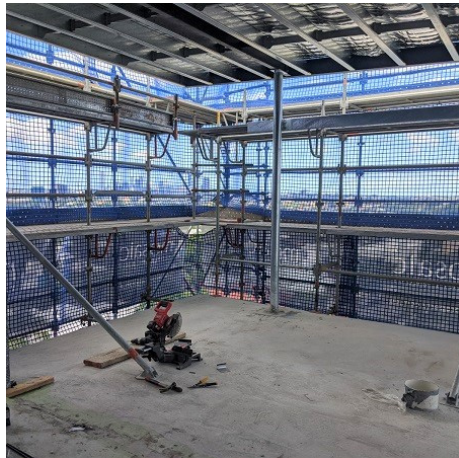

A handwritten signature in dark ink, appearing to read 'Brook'.
